AGILE CONSULTING

- Our Agile consulting will help to kick-start your SAFe implementation journey, and will guide you in setting up DevOps practices with the appropriate implementation of tools.
- We will carry out Agile assessment to determine where your organization stands at present. and identify areas of focus and any possible risks.
- We will keep in mind business goals, benefits, costs and any potential barriers to implementation and create an actionable plan.
- We will create a roadmap with clearly defined objectives such as running pilot for few teams, help in implementing tools like Jira. Confluence, Rally, VersionOne etc.

OUR KEY AREAS OF CONSULTING INCLUDE

- DevOps consulting in the area of building DevOps teams, finding the right toolchain for your organization, training staff on DevOps tools and running pilot.
- Consulting on Technical practices such as Behavior Driven Development, Test Driven Development and Continuous Integration etc.
- Setting up ALM tools and training.
- Agile Health Assessment by independent coaches to ensure that your organization is moving towards preset goals by evaluating processes, people and culture etc.
- Rolling out frameworks like Nexus. LeSS. Kanban and Scrum by training staff. running pilot and designing the information radiator.

AGILE COACHING

- We believe in the power of enabling over offering readymade solutions. Our coaches are excellent enablers who can inculcate the agile mindset in your team and lay the path for your agile transformation.
- Our coaching builds capabilities and empowers each team member to give their 100% toward organizational success.
- Our coaches helps teams to understand what success means for an Agile organization. We support your success by providing services for:

LEADERSHIP COACHING

FLOW COACHING

PRODUCT COACHING

TECHNICAL COACHING

AGILE STAFFING

One of our evolving key strengths includes accurate assessment of your business using tools and processes to identify the right candidate for your organization. Actually, we go a step further to up-skill the candidate if required to be able to ease into the role you envisage for him/her, so that there is no time lost in waiting for a resource to learn the ropes. Which translates into lesser time to market.
