2<sup>nd</sup> Semester

Course: OOP

**Ahmedabad University, India**

# Problem Definition

- A person who has achieved lots of achievements in his career and well reached by skills but at the time to apply for any **Internship** or **Job**, he doesn't know how to build up my CV or Resume more attractive and creative so that I can showup my **skills** and **knowledge** to those recruiters what I have already achieved till now through only one or two page article or mostly called **CV**.
- So there is always one **major problem** with those candidates who want to apply for job but don't know how to build my **CV** or **Resume** effective and attractive.

# Objective and End Users

- **CV builder's Objective** is to give free hands to those users who want to build their own CV or Resume by just **filling up details** like Personal Information, Skills, Career Objective and many more in to those blanks which are provided in the application.
- Users can **create** new CV or Resume and they can **edit** it after also.
- CV builder can also suggest you to **find jobs** and **companies** related to your **skills** and interests which you have mentioned in Resume.
- **Everyone** can build CV or Resume as they need for it. So everyone are **End Users**.

# Functionality

- Guest User
  1. User can be able to see the **difference** between CV and Resume.
  2. User can see the **sample templates** of CV and Resume in different formats.
- Users can **create CV or Resume** as per their requirements of job.
- Choose CV and Resume's different **Formats as per professions**.
- Users have to **fill only details** which are asked for and they can get ready copy of CV or Resume after that.
- Users can **add** their **photograph** If they want so.

- If user want to **highlight** some particular words/lines in the CV and Resume then User can be able to do that by just click some event buttons.
- User can **save PDF** of CV and Resume in **Drive** and **my account** also.
- Users can **share their CV** and Resume via Email or WhatsApp.
- User will also notify for **jobs** and **companies** related to their **skills** and interests which they have mentioned in Resume or CV via Email.
