

Certified
Artificial intelligence expert

FAST-TRACK TO FUTURE-READY AI LEADERS

SMART | ACCELERATE | SCALE

Unleash your Potential with a Premium AI Certification

AI is being elevated constantly for some time and is being considered as a revolution in the whole IT field.

There is a strong need for AI professionals who are skilled to deliver state-of-the-art AI solutions. The objective of the course is to impart the essential knowledge of AI and ML.

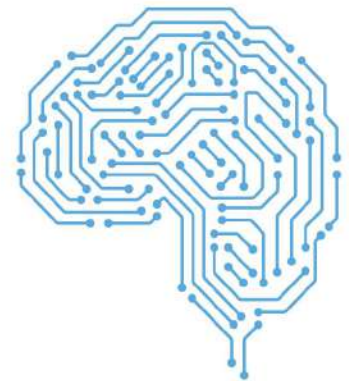

**MORE THAN 60% OF
THE BUSINESS LEADERS BELIEVE
THAT AI WILL DISRUPT
THEIR BUSINESSES WITHIN THREE YEARS.
THE MOUNTING AI ADOPTION
ACROSS THE INDUSTRIES HAS
ENHANCED THE
DEMAND FOR SKILLED
AI PROFESSIONALS.**

The artificial intelligence market size was valued at USD 39.9 billion in 2019 globally and is expected to grow at a compound annual growth rate (CAGR) of 42.2% from 2020 to 2027. Technological advancement is accelerating the demand for Artificial Intelligence professionals by creating millions of new jobs today and in the near future.

As per LinkedIn statistics, hiring for Artificial Intelligence roles has grown around 74% annually in the past four years. The computer and information technology related jobs are expected to grow by at least 11% from 2019 to 2029, which is much faster than the average of all other occupations. However, the current skill development rate for Artificial Intelligence professionals stands slackened. Around 40% of business leaders worldwide said that talent shortage is a key hurdle in implementing and scaling their AI solutions.

SO, WE ARE BRINGING WORLD-CLASS ARTIFICIAL INTELLIGENCE LEARNING TO YOUR DOORSTEP. LIVE IT!

PROGRAM BENEFITS:

- Learn the all-new course curriculum that includes NLP, Machine Learning Algorithms, Python, Deep Learning, Sentimental Analytics, AI workflows, and more.
- A self-paced and do-it-yourself program.
- Get the most exhaustive and FREE study books, eLearning materials, and latest workshops.
- Anywhere, anytime 1 to 1 assessment.
- Practice code and data sets for hands-on learning.
- Get your sharable and state-of-the-art digital badge and course completion certificate.

CERTIFICATE AND DIGITAL BADGING

Once you clear your certification exam, you will be awarded the most prestigious Artificial Intelligence Certification and also the state-of-the-art digital badge to showcase your exceptional achievement. You can share your digital badge on various social media platforms such as LinkedIn, Facebook, Twitter, Instagram, and more.

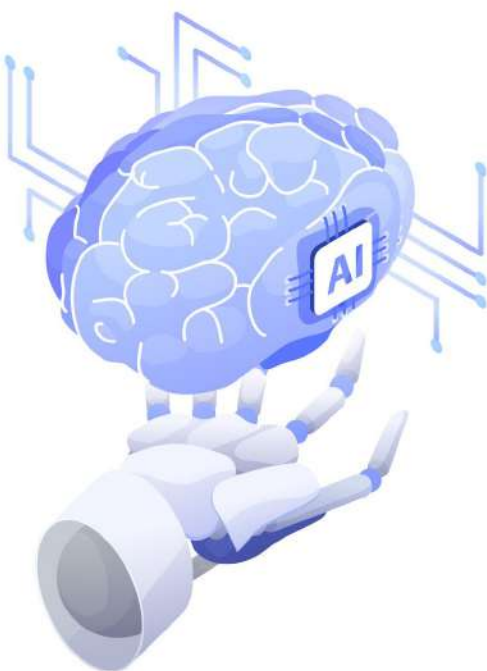

Target Audience:

Graduates from any discipline aiming for a successful career in Artificial Intelligence and Machine Learning. IT professionals who wish to enhance their AI skills, Officers from Tri-services, R&D professionals, or anyone who wants to develop expertise in the field of AI.

Duration: 30days

Course framework:

- 1) Probability Theory and Pattern Recognition
- 2) Machine Learning & Deep Learning
- 3) Computer Vision
- 4) Tensor Flow and Keras
- 5) Artificial Neural Network
- 6) Recurrent Neural Networks(RNN) LSTM, BPTT
- 7) Big Data Analysis and Algorithms
- 8) Natural Language Processing
